“In these new translations Meineck and Woodruff have struck a near-ideal balance between accuracy and readability, formality and colloquialism. Their versions are simply a pleasure to read, conveying with remarkable vividness the powerful characterizations and poetic variety of the originals. ### Classical Latin:

### An Introductory Course

by J.C. McKeown

A streamlined revision of McKeown’s *Classical Latin* (2008), offering an extensively field-tested text with web support for a two-semester introductory Latin sequence.

Comments on the 2008 edition:

“McKeown’s *Classical Latin* gets two thumbs up: lucidly written, succinct, intelligent, and accessible. The traditional presentation is complemented by a strong cultural component and active language acquisition strategies. This combination of ancient “golden” texts and oral Latin will appeal to all kinds of language learners. The length of the book and the length of each chapter are manageable and in a classroom setting could be adapted to a two-semester course or a six-week intensive course with equal success. It could also serve the self-learner and the home school market, or anyone else who wants a key to the ancient world in a single volume.”

—Cynthia White, *University of Arizona*

J.C. McKeown is Professor of Classics,  
*University of Wisconsin, Madison*

### Daily Life of the Ancient Greeks

By Robert Garland

2008 272 pp. \$14.95 pa. ISBN 978-0-87220-956-5 exam price: **free**

Drawing on the most recent scholarship, this engaging, accessible volume brings ancient Greek society—from food and drink to literacy, the plight of the elderly, the treatment of slaves, and much more—vividly to life; it also explores the mentalities and morals of ordinary ancient Greek citizens at all social levels. More than forty illustrations are included, as are maps, a chronology, a glossary of Greek terms, and suggestions for further reading.

EURIPIDES

### Alcestis, Medea, Hippolytus

Translated by Diane Arnson Svarlien

Introduction and Notes by Robin Mitchell-Boyask

2007 248 pp. \$9.95 pa. ISBN 978-0-87220-822-3 exam price: **\$2.00**

“The translations are lively, vigorous, colorful, and direct, while remaining very close to the Greek; I laughed out loud more than once when I realized that, yes, this was exactly what Euripides had said. Arnson Svarlien has also taken care with the meter. Iambic trimeter, the ‘spoken’ meter of Greek, has been represented with iambic pentameter in English; but even in the lyric passages, whose meters do not translate into English, respension within odes has been preserved. Yet all of this attention to such details of meter and accuracy sacrifices nothing in clarity or pace. Arnson Svarlien’s translations are an ideal introduction to Euripides for students with no Greek and little knowledge of the ancient world. They remind me of why I love Euripides.”

—Laurel Bowman, *University of Victoria*

### Medea

Translated by Diane Arnson Svarlien

Introduction and Notes by Robin Mitchell-Boyask

2008 104 pp. \$5.95 pa. ISBN 978-0-87220-923-7 exam price: **free**

“This is the *Medea* we have been waiting for. It offers clarity without banality, eloquence without pretension, meter without doggerel, accuracy without clumsiness. No English *Medea* can ever be Euripides’, but this is as close as anyone has come so far, and a good deal closer than I thought anyone would ever come. Arnson Svarlien has shown herself exceedingly skillful in making Euripides sound Euripidean.”

—David M. Schaps, *Bryn Mawr Classical Review*

APOLLODORUS & HYGINUS

### Apollodorus’ Library and Hyginus’ Fabulae Two Handbooks of Greek Mythology

Translated, with Introduction, by Stephen M. Trzaskoma

& R. Scott Smith

2007 328 pp. \$13.95 pa. ISBN 978-0-87220-820-9 exam price: **\$3.00**

“To refer to this volume as just a translation is misleading, because Smith and Trzaskoma have provided much more, most notably the best short introduction to ancient mythography—and these particular authors—available in English....The translations themselves are clear and accurate. [An] admirable volume. Smith and Trzaskoma are to be commended.”

—Kris Fletcher, *Bryn Mawr Classical Review*

### Anthology of Classical Myth

#### Primary Sources in Translation

—Richard Martin, *Stanford University*

### Daily Life of the Ancient Romans

By David Matz

2008 224 pp. \$14.95 pa. ISBN 978-0-87220-957-2 exam price: **free**

“The book’s use of primary sources to illustrate daily experiences makes it valuable both for the historical and cultural background it presents and for the wide array of Roman voices it includes. Its chapter arrangement and direct, informative style make it an excellent supplementary text for courses on classical literature. The chronology and brief biographies of Roman authors are valuable and uncomplicated resources.”

—Okey Goode, *Lewis-Clark State College*

C. A. E. LUSCHNIG

## **An Introduction to Ancient Greek, 2nd Ed.**

### *A Literary Approach*

Revised by C.A.E. Luschnig & Deborah Mitchell

2007 392 pp. \$34.95 pa. ISBN 978-0-87220-889-6 exam price: \$5.00

"I have used C.A.E. Luschnig's text for my beginning Greek sequence for over twenty years. I find that her approach brings students to competency quickly and efficiently. The new version improves what was already a good text, keeping the many exercise sentences, providing a realistic selection of 'real Greek' readings with translation aids conveniently below. The proof is in the pudding: after doing beginning Greek with Luschnig's text, my Greek students have been able to move easily to the second year reading classes in either Euripides or Plato."

—Karelisa Hartigan, *University of Florida*

"Luschnig's excellent *An Introduction to Ancient Greek* offers a thorough and clear account of grammar and syntax, copious exercises for practice, and a wonderful array of brief passages from ancient authors for translation and discussion. My students and I have used the text happily for years, and this new edition is even better than its predecessor." —Deborah H. Roberts, *Haverford College*

". . . the most successful of the more than half-dozen beginning Greek grammars I have used in the classroom, especially in this revised edition. Students meet 'real Greek' early and often, and the exercises are ample and varied. What I appreciate particularly is that this grammar has personality, even a sense of humor, so that my students feel they are learning ancient Greek from Cecelia Luschnig rather than an anonymous textbook. The Web site associated with this book is an invaluable resource."

—Sherry Gray Martin, *Faculty, St. John's College, Santa Fe*
